

Research Topic Submission Form for the Interdisciplinary Education Programme	
Discipline <i>Please indicate</i>	<input type="checkbox"/> medical sciences <input type="checkbox"/> pharmacology and pharmacy <input checked="" type="checkbox"/> health sciences
Submitter - a person willing to act as a supervisor	
Title/degree Full Name	dr hab. Ewa Kocot
Category <i>please select the relevant category according to the DSMHS Regulations</i>	<p><b>X A person employed at the Jagiellonian University Medical College (JU MC), holding a post-doctoral habilitation degree or professor's degree, who has submitted a declaration of at least 75% affiliation with the discipline in which the research topic is being proposed</b></p> <p><input type="checkbox"/> A person employed in Poland at a university or another entity listed in Article 7(1) of the Act – Law on Higher Education and Science, who holds the title of professor or a post-doctoral habilitation degree, has submitted a declaration of at least 25% affiliation with the discipline in which the research topic is being proposed, and has presented the written consent of a person meeting the conditions specified in item 1 to assume the role of supervisor, following a positive opinion of the School Board</p> <p><input type="checkbox"/> A person employed at a foreign university or academic institution, provided that the relevant research discipline board recognises that the person has a significant record of achievement in the academic field to which the research topic pertains</p>
Date of obtaining a) doctoral degree	23.02.2009
b) post-doctoral habilitation degree	27.11.2024
c) professor's degree	-
Place of employment	Health Economics and Social Security Department, Institute of Public Health, Faculty of Health Sciences, Jagiellonian University Medical College
E-mail address	<a href="mailto:ewa.kocot@uj.edu.pl">ewa.kocot@uj.edu.pl</a>
Contact phone	+48 607 627 368
Academic achievements: List of max 5 publications from the last three calendar years	<ol style="list-style-type: none"> <li>1. Kocot E, Ferrero A, Shrestha S, Dubas-Jakóbczyk K. <b>Proposed research topic</b>	<b>Priority setting for healthcare in South-East Asian countries</b>
<b>Reasons for the compatibility of the proposed research topic with the selected discipline (maximum 100 words)</b>	<p>A very important problem affecting all healthcare systems worldwide are limited resources, too small to meet the health needs of populations. Therefore, it is necessary to set priorities, allowing for the best possible distribution of resources between different healthcare programs and patients. The need for prioritization in healthcare occurs in all countries, but in countries with very low levels of healthcare expenditure it becomes particularly important. These countries include most of the countries of South-East Asia. Since the area of setting priorities in healthcare includes the issues of healthcare organization, its financing, and the assessment of health effects, it is fully in line with the discipline of health sciences.</p>
<b>Brief description of research methods (max. 250 words)</b>	<p>As part of the proposed research project, it is planned to conduct a comprehensive analysis including:</p> <ul style="list-style-type: none"> <li>• a scoping review of the literature, allowing, among others, to identify the methods used in the prioritization process in healthcare in South-East Asian countries,</li> <li>• analysis of documents, legal acts regarding prioritization in healthcare in the selected country/countries of the analyzed region (desk research),</li> <li>• qualitative research – in-depth interviews with people involved in the prioritization process in the selected country/countries of the analyzed region (the inclusion and scope of the qualitative analysis depends on the possibility of recruiting appropriate respondents),</li> <li>• quantitative research – application of a selected quantitative method in the area of prioritization for the selected country/countries of the analyzed region,</li> <li>• additional analyses, the type and scope of which will be determined depending on the results of the above studies.</li> </ul>

<b>Expected location of project implementation:</b>	Health Economics and Social Security Department, Institute of Public Health, Faculty of Health Sciences, Jagiellonian University Medical College	
<b>Description of tasks for the PhD student</b>	<ul style="list-style-type: none"> <li>• Preparation of a protocol for a scoping literature review and participation in its implementation</li> <li>• Analysis of documents and legal acts</li> <li>• Active participation in planning, preparing and conducting qualitative and quantitative studies</li> <li>• Analysis of the results of the conducted research</li> <li>• Preparation of a series of scientific publications</li> </ul>	
<b>Expectations towards the PhD student: specific skills and experience</b> <i>(the description of expectations cannot indicate a specific candidate)</i>	<ul style="list-style-type: none"> <li>• English language proficiency</li> <li>• Knowledge of the organization and financing of the healthcare system</li> <li>• Ability to work with an Excel spreadsheet</li> <li>• Analytical thinking skills</li> <li>• Communication skills and the ability to work in a team</li> </ul>	
<b>Temporary availability of the PhD student (number of hours per week) required for the implementation of the project</b>	10-15 hours per week	
<b>Does the research project require PhD student's independent performance of medical procedures?</b> <i>Underline the applicable</i>	<u>NO</u>	<b>YES</b> <i>Please specify the required professional licence and provide a brief justification</i>
<b>Date</b> 23.04.2025	 ..... <b>Submitter's signature</b>	

\* If the research topic requires the PhD student to independently perform medical procedures, then in accordance with the admission procedures (Annexes 1 and 2 to Resolution No. 14/II/2024 of the Jagiellonian University Senate, dated 28 February 2024), the candidate must hold the appropriate professional licence. The type of licence (e.g. licence to practise as a doctor, nurse, physiotherapist, etc.) must be clearly indicated and justified. In the DSMHS admission procedure, a licence to practise as a medical doctor or dentist issued for the duration of a postgraduate internship shall be considered equivalent to a full licence to practise as a medical doctor or dentist in the Republic of Poland.

The research topic submitted must not overlap thematically or conceptually with any current project being undertaken by the PhD student under the supervision of the submitter.

The completed form should be printed, signed in the appropriate sections, scanned together with the signed annexed statements into a single PDF file, and submitted electronically **by 30 April 2025** to:

**in the discipline of medical sciences:** [rekirutacja.nmedyczne@cm-uj.krakow.pl](mailto:rekirutacja.nmedyczne@cm-uj.krakow.pl)

**in the discipline of pharmacology and pharmacy:** [rekirutacja.nfarmaceutyczne@cm-uj.krakow.pl](mailto:rekirutacja.nfarmaceutyczne@cm-uj.krakow.pl)

**in the discipline of health sciences:** [rekirutacja.nozdrowiu@cm-uj.krakow.pl](mailto:rekirutacja.nozdrowiu@cm-uj.krakow.pl)

The email should include **the title of the proposed research topic**.

## Declaration of the Person Submitting the Research Topic

I declare that the research topic entitled

### Priority setting for healthcare in South-East Asian countries

conducted by the PhD student of the Doctoral School of Medical and Health Sciences  
~~relates to~~/does not relate to\* the protected activity, as defined in Article 21 of the Act of 13 May 2016 on Counteracting the Risk of Sexual Offences and the Protection of Minors (Journal of Laws of 2023, item 1304, as amended), involving the upbringing, education, recreation, treatment, provision of psychological counselling, spiritual development, sports, the pursuit of other interests by minors, or their care.

\*Delete as appropriate

/Signature of the person submitting the research topic/

### **Declaration of the Person Submitting the Research Topic**

I confirm that I am familiar with the rules for admission to the Doctoral School of Medical and Health Sciences at the Jagiellonian University for the academic year 2025/2026 as set out in in Resolution No. 15/II/2025 of the Senate of the Jagiellonian University, dated 26 February 2025.

In particular, I acknowledge that:

If two or more candidates indicate the same research topic in the admission procedure, the research topic will be awarded to the candidate with the highest score. Other candidates will be offered a selection of the remaining research topics not assigned to admitted candidates.
